WHO WE ARE

A U.S.-Focused Supply Platform

LeFeng International Inc serves the U.S. market as the commercial, warehousing and customer-service platform for a focused vegan glucosamine portfolio.

U.S. Presence

- California sales and customer support
- Local inventory and faster fulfillment
- U.S. warehousing and door-to-door delivery

Manufacturing Backing

- Specialized vegan glucosamine manufacturing in China
- Product customization and granulation
- Documentation support for U.S. customers

ONE INTEGRATED SUPPLY CHAIN

Factory capability in China → U.S. inventory in California → Customer delivery across the U.S.

Primary customer-facing company: LEFENG INTERNATIONAL INC (USA)

Positioning for U.S. Buyers

A dependable U.S.-based partner for vegan glucosamine ingredients — with factory-direct capability, local inventory, and practical support from sample to shipment.

U.S. SALES

VEGAN GLUCOSAMINE

Core Product Portfolio

Four focused ingredients. Clean positioning. Flexible supply.

D-Glucosamine HCl

Core vegan glucosamine ingredient for dietary supplement applications. Available for standard bulk supply and customized programs.

D-Glucosamine Sulfate 2KCl

Common glucosamine salt for joint-health formulas; suited to supplement manufacturers and contract-pack customers.

D-Glucosamine HCl DC95

Direct-compression grade designed for efficient tablet production and finished-product programs.

N-Acetyl-D-Glucosamine

Acetylated glucosamine derivative for advanced ingredient use and customized product programs.

Customizable Packing

Granulation

Private Label

OEM Support

U.S. Inventory

Detailed specifications, mesh size, packing and documentation can be matched to each customer program.

PRODUCT FOCUS

D-Glucosamine HCl

A core vegan glucosamine ingredient for U.S. supplement manufacturers, contract manufacturers and ingredient distributors.

- > Non-shellfish vegan sourcing focus
- > Bulk ingredient supply for commercial manufacturing
- > U.S. inventory support for selected programs
- > Customized packing and customer support available

Customer Value

For customers who need a straightforward vegan glucosamine HCl supply program, LeFeng combines factory-direct sourcing with U.S.-based sales, inventory and delivery support.

Typical commercial format: bulk ingredient supply.

Final specification to be confirmed per approved customer specification.

U.S. SALES

WAREHOUSING

CUSTOMER SUPPORT

DC95 • SULFATE 2KCl • N-ACETYL

Specialty Options

D-Glucosamine HCl DC95

A direct-compression grade for customers who need a tablet-friendly glucosamine ingredient. Suitable for programs where flow, compressibility and downstream processing efficiency matter.

D-Glucosamine Sulfate 2KCl

A classic glucosamine salt widely used in joint health and dietary supplement formulas. Appropriate for contract manufacturing and commercial packaging programs.

N-Acetyl-D-Glucosamine

A differentiated glucosamine derivative for premium ingredient applications and customized finished-product programs.

Need a custom version? Ask us about powder customization, granulation and OEM/private-label processing.
